

FOR IMMEDIATE RELEASE

**TELEPRESENCE OPTIONS “SOLUTION SNAPSHOTS”
LAUNCHED AS MOST COMPREHENSIVE SOURCE BOOK OF
TELEPRESENCE SYSTEMS, MANAGED SERVICES AND INTER-
NETWORKING SOLUTIONS**

**ONLINE CATALOG INCLUDES UP-TO-DATE OVERVIEW INFORMATION ON
MORE THAN 60 TELEPRESENCE PRODUCTS AND SERVICES FROM
OVER 20 LEADING COMPANIES**

ASHBURN, VIRGINIA – May 5th, 2009 –*Telepresence Options*, the #1 website and sourcebook for telepresence technologies has expanded again with the addition of a comprehensive sourcebook for telepresence technologies: “Telepresence Solution Snapshots”. “Solution Snapshots” is the most comprehensive and intelligently organized catalogue of telepresence conferencing systems, display technologies, telepresence managed services, inter-networking solutions, video infrastructure, peripherals, system resellers, integrators and consultants anywhere. Solution Snapshots are available free at www.TelepresenceOptions.com/solutions.

The new Solution Snapshot section covers more than 60 unique products, services and solutions from over 20 different companies including systems and environments from the industry’s leading manufacturers: [Cisco](#), [Digital Video Enterprises](#), [LifeSize Communications](#), [Polycom](#), [Telepresence Tech](#), and [Teliris](#).

To help further navigate the complexity of today’s telepresence marketplace, the “Solution Snapshot” section also provides information about telepresence managed service providers, inter-networking solutions, telepresence and videoconferencing infrastructure, resellers, system integrators and consulting firms. Providers include [BT Conferencing](#), [GlowPoint](#), [HaiVision](#), [Hibernia Atlantic](#), [Iformata Communications](#), [Nortel](#), [MASERGY](#), [Telx](#), [Virtela](#), [Verizon Business](#), [Vidyo](#), [ATK Services](#), [The Whitlock Group](#) and the [Human Productivity Lab](#).

“Telepresence Options is constantly improving with more content, better organization, and improving distribution cementing itself as the one-stop-shop for all things telepresence: News, New Product Announcements, Videos, Comparisons, Press Releases, and more in one location both on the web and in print,” stated Howard Lichtman, *Publisher, Telepresence Options*. “We will continue to expand the site weekly with in-depth overviews of telepresence technologies, solutions, and providers.” Anyone interested in telepresence can easily stay current by subscribing via RSS, HTML e-mail, or print at <http://www.telepresenceoptions.com/syndication/>

Visited by over 12,000 information seekers monthly from over 70 different countries, the *Telepresence Options* website offers telepresence and visual collaboration providers the largest, consistent identifiable audience interested in telepresence and the best single source showcase of telepresence related products and services. Each Solution Snapshot listing is linked directly to a company profile and to the company website for access to provide the latest /more in-depth information. *Telepresence Options* (www.TelepresenceOptions.com) remains the most heavily trafficked source of news, information, and analysis of the growing telepresence and collaborative communications market, which is expected to reach over \$1 Billion in sales by 2010.

Companies interested in having their solutions profiled or to find out more about other *Telepresence Options* marketing programs, please contact us at 571-331-5678 or Info@TelepresenceOptions.com.
